Work Experience

Frontend Developer at B2Y Infy Solutions (Nov – Present)

Client Project: Imly Studio – Interior Design & Manufacturing ERP/CRM

- Contributing to the development of a multi-tenant ERP/CRM application for the interior design and furnishing industry using React.js.
- Developing reusable UI components and implementing responsive interfaces across multiple business modules.
- Enhancing Orders, Dashboard, and other business modules with improved functionality and user experience.
- Integrating REST APIs to enable dynamic data handling and seamless frontend-backend communication.
- Implementing multilingual support (i18n) and role-based UI functionality.
- Resolving frontend bugs, optimizing UI performance, and improving application responsiveness

Internal Company Projects

ShopNow – E-commerce Application

- Developing customer-facing and admin portals using React.js.
- Implementing product listings, product details, shopping cart, checkout, and order management interfaces.
- Building admin functionalities for product and order management.
- Integrating REST APIs and developing responsive, reusable UI components.

Real Estate Management Application

- Developing customer and admin portals for a real estate management platform.
- Implementing property listings, property details, search, and filtering functionalities.

- Building administrative interfaces for property management.
- Integrating REST APIs and enhancing responsive layouts across devices.

Front-End Developer at LKR Technologies (Apr 2025 – Oct 2025)

LKR Technologies: Built a dynamic corporate website highlighting company services, products, and career options with clean UI and engaging content.

Suits and Salons: Developed a responsive salon website showcasing services with pricing, detailed categories, and integrated a smooth booking system.

Leaira Events: Designed an event management website highlighting services, client events, and organized functions. Showcased service packages, event galleries, and inquiry forms to attract potential clients.

React Developer at SurveyHeart (Oct 2024 – Feb 2025)

SalesReport: Developed a user-friendly UI for a sales report feature with date filters, graphs, sorting options, and platform-specific views for Web and Android subscriptions

Community: Developed a user-interactive UI for a community feature, enabling users to ask, edit, delete questions and answers, view detailed questions, copy links, and access verified question highlights with sign-in restrictions for posting

FAQ: Developed an FAQ feature with an admin panel to manage categories and FAQs, including add, edit, and delete functionality, with all updates dynamically displayed on the webpage.
